

Dr. Meredith Williams
Director
Department of Toxic Substances Control
P.O. Box 806, Sacramento, CA 95812-0806

February 17, 2023

Dear Dr. Meredith Williams,

It's offensive to be receiving the "Santa Susana Field Lab Community Survey" from the DTSC, almost a year after the backroom cleanup deal was struck with Boeing, allowing them to break their promises to the community for a complete cleanup.

DTSC had ample time, before it finalized the botched clean up deal on May 2, 2022. Many stakeholders attempted to reach DTSC prior to the confidential deal being signed between Boeing and the state, but the public, as well as those of the elected officials whom have diligently fought for the 2007 Order on Consent and 2010 Agreement On Consent, were not allowed to influence the decisions made behind closed doors.

That's why several organizations are currently suing DTSC and Boeing, for excluding the community and local government from the CEQA process that would allow them to weigh in and to influence the decision-making process for the "Settlement Agreement" and "MOU."

Now DTSC is asking the community some basic questions about their cleanup concerns a few weeks before the Programmatic Environmental Impact Report (PEIR) is finalized, five years after the draft EIR was circulated. This survey seems like a thinly veiled attempt to further reduce remediation efforts by citing "public concern" over things like traffic.

Stakeholders want a seat at the table in order to engage in meaningful decisions for the cleanup that impacts our community. And what we received was a survey that will have little to no effect whatsoever on the actual outcome of the cleanup that we have waited decades for.

Sincerely,

1. Melissa Bumstead, West Hills, California
